

BOVINE COLOSTRUM REFERENCES

Colostrum prevents and treats NSAID induced gut damage. Gut. 1999 May, 44(5): 653-8.

TGF-beta and IGF-1 are found in first feedings at 248-1850 ng/ml and 12.4-42.6 ng/ml respectfully in cows. J Immunoassay. 1998 May-Aug; 19(2-3): 195-207.

TGF-beta accelerates wound healing by increasing total protein and collagen. Science. 1983 Mar 18; 219(4590): 1329-31.

Bovine Colostrum enhances resistance and reduces the incidence of viral URTIs. Eur J Nutr. 2003 Aug; 42(4): 228-32.

Transfecting Telomerase in foreskin fibroblasts extended the normal life span by at least 20 doublings. Science. 1998 Jan 16; 279(5349): 349-52.

Treatment of HIV patients with Bovine Colostrum significantly reduced refractory diarrhea. Clinical Investigation. 1992 Jul; 70(7): 588-94.

Cytokines Interleukin 1 and 6, tumor necrosis factor and interferon gamma derived from colostrum play a vital immune-stimulatory role in the newborn. J Biol Regul Homeost Agents. 1991 Oct-Dec; 5(4): 121-4.

Bovine Phosphatidylserine improved several cognitive measures vs. placebo. Psychopharmacol Bull. 1992; 28(1): 61-6.

Bovine Colostrum decreases respiratory tract infections in endurance athletes. Med Sport Sci. 2012; 59: 62-9.

Improves and enhances recovery with intensive exercise. J Sci Med Sport, 2002 Jun; 5(2): 65-79.

Bovine Colostrum increases IGF-I after exercise. J Appl. Physiol (1985). 2002 Aug; 93(2): 732-9.

Increases timed trial performance in competitive cyclists. Med Sci Sports Exerc. 2002 Jul; 34(7): 1184-8.

Increases bone free lean body mass with exercise. Nutrition. 2001 Mar; 17(3): 243-7.

FURTHER STUDIES SHOW COLOSTRUM...

- Provides transfer of passive immunity.
- Targets enteropathogenic bacteria, E.coli, Rotavirus, Shigella, S. dysenteriae, Vibrio cholerae, Helicobacter pylori.
- Cures cryptosporidiosis in immunocompromised children and HIV patients.
- Improves disability scores in Multiple Sclerosis patients.
- Prevents NSAID induced gastritis.
